1. It was learned on 27 March 1955, that only 53 percent of the production targets of VEB Ingenieurtiefbau Brandenburg (ITB) were attained during the first quarter of 1955. Adverse weather conditions were held responsible for this nonfulfilment. ITB was ordered to draw up a plan to compensate for the arrears of the first quarter during the second quarter of 1955.
2. It was learned on 21 March 1955 that new construction projects were to be carried out at Eggesin and Torgelow. Presumably a new road leading to the ration depot will be constructed at Eggesin. No details about the Torgelow project are available.
3. In late March, general dissatisfaction was observed among the workers at individual construction sites of ITB which was caused by the recently issued slogan "higher norms and lower wages."
